Assessment of the mobility:

Pass/Fail is given on each of two Learning Outcomes. A pass will be awarded based on the criteria contained in the attached Unit Specification which includes all checklists and a marking guide.

Assessments, designed to reflect occupational standards, are based on the each school's principals underpinned by input from industry professional and partners.

Assessment of LO1 takes place in a real, public facing, event.

LO2 involves delivery of a reflective presentation which is made available to future groups and partners.

Summative events each last approximately one hour, however there is substantial formative work supported by continual tutor and industry professional input/feedback.

Where possible evidence is recorded in digital formats to promote location independence of the event, potentially the assessor and to facilitate dissemination.
